

## MSc THESIS

PREREQUISITES FOR UNDERTAKING A THESIS:	A postgraduate student may request the commencement of its thesis right after the completion of two semesters from the first registration in the Program of Postgraduate Studies (P.P.S) and on the condition that he/she has passed the course examinations corresponding to at least 45 ECTS.
PROCEDURE:	In the beginning of the semester in which the thesis will be completed the student should submit an application form to the Registrar. The fields of the application form that should be filled in are: a) proposed title of the thesis, b) proposed supervisor, c) proposed written language and d) a brief report of the Thesis.
DURATION:	The time elapsed between the approval of the application form by the Assembly and the completion of the Thesis should be not less than a semester.
CONTENT:	The Thesis is a composite or researching work of innovative character. The planning of the Thesis is under the responsibility of the supervisor. It is also understood that Theses should comply to the Academic Ethics and the policy of the University about morality in research.
CREDITS:	20 ECTS
	The interested reader may refer to article 14 of the regulation (in Greek) for more information.
